ADITYA HIMAWAN

Jakarta, Indonesia

FRONTEND ENGINEER / DESIGN ENGINEER

adityahimaone@gmail.com | linkedin/adityahimaone | adityahimaone.space | github/adityahimaone | +6285311679409

Design Engineer and Frontend Engineer with 4+ years of experience building and leading production web applications using React, Next.js, and TypeScript. Experienced in scalable frontend architecture, SSR, design systems, state management, and end-to-end feature delivery, including platforms serving 15K+ users and multi-product B2B SaaS HRIS suites. Additional experience in backend integration, AI workflow automation, and self-hosted infrastructure.

Work Experience

80&Company (Part time) - **Kyoto, Japan** Apr 2024 - Sep 2024

Fullstack Developer

- Developed frontend features for an **HR Management System**, integrating with backend services built with **tRPC and Prisma** to support scalable data workflows.
- Resolved critical production issues and optimized frontend performance across key HR management workflows, improving application reliability.

PT Fatiha Sakti (Fulltime) - **Jakarta, Indonesia** Oct 2022 - Present

Frontend SaaS Developer

- Led frontend development for a **production job-seeker platform** serving **15K+ users**, using Next.js SSR, feature-based architecture, reusable component architecture, Zustand, and React Query to build a scalable and maintainable frontend.
- Built and launched **Campus Connect**, a platform connecting students with career opportunities and campus initiatives, within 3 months using scalable frontend architecture, SSR, reusable components, Zustand, and React Query.
- Developed and maintained core frontend features across a **multi-product B2B SaaS HRIS ecosystem**, supporting enterprise HR workflows and improving usability and performance as part of a cross-functional engineering team.
- Designed and implemented **automated KPI tracking workflows** within 3 months, streamlining performance evaluation and reducing manual reporting effort for HR teams.

PT Unzyp Solusi Teknologi (Contract) - **Jakarta, Indonesia** Jun 2022 - Sep 2022

Frontend ReactJS Developer

- Built responsive **e-commerce** interfaces using React.js, implementing reusable UI components and responsive layouts across key shopping workflows.
- Developed reusable React components with Tailwind CSS for an NFT platform, improving UI consistency and accelerating feature development.
- Delivered a production landing page using Next.js within a short delivery timeline.

Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, jQuery, SSR
State & Data: Zustand, React Query
Architecture & Design: Feature-Based Architecture, Design Systems, Reusable Component Design, Figma, Framer Motion / GSAP, Accessibility & Performance
Backend: Node.js, REST API, tRPC, Golang
DevOps & Infrastructure: Docker, VPS (self-hosted), Nginx, Grafana, Uptime Kuma
AI & Automation: LLM Integration, AI Workflow Automation, Hermes Agent
Database: PostgreSQL, MySQL

Education & Courses

Universitas AMIKOM Yogyakarta - **Yogyakarta, Indonesia** Aug 2018 - Oct 2022

Bachelor's degree in informatics, GPA: **3.75/4.00**

- Lab Assistant for Data Structures and Operating Systems, specializing in Linux

Binar Academy — Frontend JavaScript · Kampus Merdeka · React, JavaScript Feb 2022 - Jul 2022

Alterra Academy Bootcamp — Fullstack Engineering · Kampus Merdeka · React, Golang Aug 2021 - Jan 2022

Bangkit Academy by Google — Cloud Computing · Kampus Merdeka · Node.js, REST API Feb 2021 - Jul 2021
